

Sahini Komandla

Product Designer & UX Researcher

✉ skomandla27@gmail.com 🌐 sahinikomandla.com 🔗 linkedin.com/sahinikomandla

Education

University of Washington <i>M.S. Human Centered Design & Engineering</i>	Sep 2024 – Jun 2026
San Diego State University <i>B.A. Psychology, Emphasis in Neuroscience</i>	Aug 2018 – May 2022

Experience

Team Chemistry Design, Huddl <i>Product Designer</i>	Jan 2026 – Present
• Informed product direction by conducting 15 user interviews, 3 field studies, and 6 co-design sessions, resulting in implementation of 4 key design features. • Streamlined design-to-development handoff by integrating Figma MCP and establishing a process built on design tokens and component specs. • Performed WCAG 2.2 accessibility checks throughout prototyping in an advisory role for the project stakeholder	
University of Washington, Accessible Technology Services <i>IT Accessibility Assistant</i>	Aug 2025 – Present
• Remediate PDFs and Office documents applying WCAG 2.1 AA and PDF/UA standards, cutting reported usability errors by 98%. • Translate complex accessibility requirements into actionable recommendations for non-specialist audiences.	
Digital Aid Seattle, Games For Love <i>Product Designer</i>	Feb 2024 – May 2026
• Led 0-to-1 product design for a gaming charity platform, defining IA, interaction patterns, and visual language in Figma. • Built a design system of 40+ reusable components, reducing developer handoff time; validated decisions through iterative usability testing.	
Artrix Global <i>Digital Communications Associate & UX Designer</i>	Feb 2023 – Feb 2024
• Connected design choices to business outcomes by increasing NGO conversion rates by 15% through a cohesive design strategy. • Designed and iterated 3 interactive prototypes across multiple feedback cycles, improving clarity, readability, and inclusivity.	

Projects

Accessible Wearables (Design Jam) <i>UX Researcher & Product Designer</i>	Oct 2025 – Nov 2025
• Interviewed 5 blind and visually impaired users over 3 weeks to uncover wayfinding pain points, then synthesized findings in an 8 hour design jam with industry experts. • Delivered a research presentation and design solution identifying key features and accessibility considerations	
Google Vertex AI (Sponsored Project) <i>UX Researcher</i>	Jan 2025 – Mar 2025
• Designed and led a 10-week moderated usability study for Vertex AI Studio, assessing feature discoverability with 8 participants. • Combined qualitative interviews with quantitative metrics (SUS, CSAT, NASA-TLX) to identify opportunities to reduce cognitive load in AI workflows.	

Skills

Design: Prototyping, Prompt engineering, Information architecture, Interaction design, Vibe coding, Product strategy, Design systems, WCAG & PDF/UA guidelines

Research: Qualitative research, Usability testing, Co-design, Journey mapping, A/B testing, Contextual inquiry, Heuristic evaluation, Competitive analysis

AI & Tools: Figma, Framer, Claude code, Miro, Notion, NotebookLM, Adobe XD, Figma make, Reve, Loveable, Google stitch, Vercel, Supabase, React, HTML, CSS

Certificates

UX Design Certificate: 🌐 Google / Coursera

Coding Certificate: 🌐 SheCodes

Digital Marketing: Google Digital Garage
